

# Clearing Supers and Frame Spacing

## Clearing Supers

The traditional method of removing bees from supers is the clearer board with Porter bee escapes. There are now Diamond bee escapes which are fast and efficient.

Porter Bee Escapes - Fits into holes in wood or glass cover boards.

Bees escape from super through light springs.

Diamond Bee Escape - A bee escape with no moving parts, allows rapid exit of the bees from the supers. One per cover board.

<b>Mouse Guards</b> Fix across entrance in autumn to prevent mice entering hive.			
	GUA01	£0.69	0.1

## Stainless Steel Smoker

With guard. The guard provided on this model prevents burns from the hot barrel. Beginners have found this smoker particularly useful as the guard has a hook to hang the smoker on the hive during manipulation.

Economy Large Smoker

\*NBS Propane Lighter free with smoker
